

CULTURAL RESOURCES MANAGEMENT

Innovative processes and solutions guiding projects through federal, state, and local laws safely and cost effectively

CULTURAL RESOURCES MANAGEMENT

CAPABILITY STATEMENT

Broadbent offers Cultural Resource Management (CRM) services in support of projects in development, infrastructure, mining, and renewable energy. Our CRM team has project experience throughout the Intermountain West. We have the regional expertise necessary to retain all required cultural resource permits in California, Colorado, Nevada, and Utah. Broadbent's archaeologists and architectural historians understand how to guide projects through federal, state, and local laws to ensure cultural resources projects are completed on time and on budget.

Our CRM team is committed to Broadbent's high safety standards. Our field staff are Hazardous Waste Operations and Emergency Response (HAZWOPER) and Mine Safety and Health Administration (MSHA) certified so that we can safely and quickly respond to your project needs.

SERVICES

- Archaeological excavations (testing and data recovery)
- Architectural inventories and reporting
- Archival research
- Cultural resource inventories and reporting
- Cultural resource monitoring for construction and land development
